## Brand-Rex Copper Connectivity - GigaPlus Outlets
Category 5e Triple Shuttered Outlet

PRODUCT DESCRIPTION:

The Brand-Rex GigaPlus Unshielded Triple Outlet offers a high density outlet solution with true Category 5e component performance. The outlet is backward compatible with our UK and continental UNI style faceplates providing a 3 or 6 RJ-45 solution for high density outlet installations.

Each outlet is fitted with a removable label protector with individual rear cable anchors and colour wiring detail. Every outlet is supplied in an easy tear pack with a shortform installation instruction, paper label and cable ties.
