

Evolv™ Terminal Bracket Wall- and Pole-Mount

CORNING

Part Number:
EHC-BKT-Wall

Pushlok™ hardened connector technology is the key component enabling smaller terminals for FTTx networks than ever before. Designed for use in nearly every access network environment, the terminal is small enough to be placed in existing handholes or pedestals where space is paramount, on building facades, or in aerial networks (pole- or strand-mount). Improved aesthetics improve end-user adoption for facade applications. To improve accessibility and the installation of Evolv™ HC terminals, there are three styles of brackets available: a wall- and pole-mount terminal bracket, handhole-mount bracket, and strand-mount terminal bracket.

Evolv™ Terminal Bracket Wall- and Pole-Mount

CORNING

Specifications

General Specifications

Product type	Accessories
Lockable	No
Environment	Outdoor
Mounting Type	Wall-mount, Pole-mount
Application	FTTx

Standards

RoHS	Free of hazardous substances according to RoHS 2011/65/EU
------	---

Ordering Information

Product Number	EHC-BKT-Wall
Units per delivery	1/1
