

MX-SM® Surface Mount Boxes

Siemon's surface mount boxes provide users with exceptional versatility and robustness. Siemon surface mount boxes allow all standard MAX® modules and SC and LC fiber adapters to be used in surface mount applications. The compact and easily installed design offers multiple cable management features and supports UTP, Screened, coax and TERA® cabling styles, as well as fiber. Available in 1, 2, 4 and 6 port configurations, these products feature optimized jack spacing for superior AXT performance.

PATENTED

WORK AREA

Breakouts on three sides and bottom for cable/raceway entry

Label cover conceals screw for added security if desired

Snap-on cover with designation areas for color-coded icons/tabs and write-on labels

Built-in cable management posts ensure proper bend radius for copper or fiber

Available with MAX bezels or multimedia bezels to support all Siemon module types

Cable tie anchor points facilitate strain relief for cable

Optional spring-loaded shutter doors offer added protection from dust and other contaminants

Depth of box is optimized to maintain proper bend radius of cables

Left and right thumb release allow the cover to be easily removed

Z-MAX versions available, also supports TERA® outlets

ORDERING INFORMATION

MX-SM® Surface Mount Boxes

Field-assembled surface mount boxes with MAX® bezels. MAX bezels accept flat single-port MAX modules and MX-SM blanks. MX-SM boxes are also compatible with multimedia bezels and duplex SC bezels (see below).
