

Z-MAX® 6A UTP Outlets

The shielded Z-MAX outlet offers best-in-class performance in every critical specification, exceeding all Category 6A performance requirements, including alien crosstalk. Its innovative features not only speed and simplify termination, but remove installation variability for consistently high and repeatable performance — every termination, every time!

Siemon's patented **PowerGUARD** technology prevents plug and jack contact erosion due to arcing at the mated location when the plug is unmated under PoE load conditions.

Compact

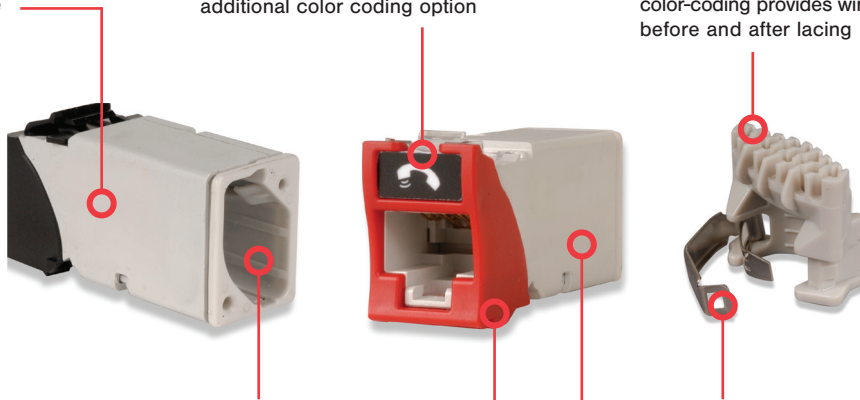

Slim and side-stackable for high-density applications. Supports “pass-thru” feature to mount from the front or rear of a faceplate

High-Visibility Icon System

Printed icons allow designation for voice/data applications and also provide an additional color coding option

Guided Termination Features

Linear lacing channels guide correct conductor placement while 2-sided color-coding provides wiring verification before and after lacing

STANDARDS COMPLIANCE

- ANSI/TIA-568.2-D
- ISO/IEC 11801-1 Ed 1.0
- ETL Tested
- IEEE 802.3an
- IEEE 802.3af (Type 1)
- IEEE 802.3at (Type 2)
- IEEE 802.3bt (Type 3 and 4)
- Power over HDBaseT (PoH)
- ANSI/TIA 1096-A
- IEC 60603-7-4
- IEC 60512-99-001 (3rd party verified)

Enclosed IDC Terminations

IDC terminations are fully enclosed in the outlet housing for robust protection

Compliant

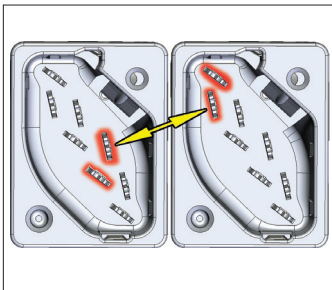

Is compliant with UL2043 and is appropriate for use in air handling spaces

Robust Hinged Cable Retention

Clip accommodates multiple cable diameters

Fastest Termination Time

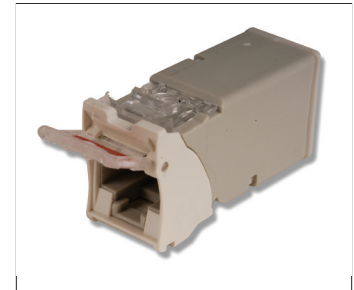

Zero-Cross™ termination module and 2-step Z-TOOL™ termination process combine for best-in-class termination time

Diagonal IDC alignment maximizes outlet to outlet pair separation to achieve AXT performance in high-density environments.

A single hybrid outlet supports both angled and flat mounting orientations.

Spring door option minimizes exposure to dust and other contaminants.

*Note: Keystone version is designed for integration with various third party mounting products and is not compatible with standard Siemon MAX mounting products.

Keystone versions are also not compatible with icons and do not have door options.

Outlet terminates UTP cable constructions with 23 – 26 AWG (0.64 – 0.51mm) solid and 26 AWG (0.48mm) stranded conductors, with up to 0.60mm diameter conductors and up to 1.48mm diameter over insulation.

Add "B" to end of part number for bulk project pack of 100 modules (hybrid modules include icons).

It is recommended to use 10G MAX faceplates with Z-MAX 6A UTP outlets to achieve full Z-MAX warranty performance. Side stacking Z-MAX 6A UTP outlets in standard faceplates will result in minimum compliant alien crosstalk performance.
